# Daniel Schmidt

San Diego, CA, Willing to relocate | 619-987-1474 | [dschmidt619@gmail.com](mailto:dschmidt619@gmail.com) | [Github](#) | [Linkedin](#)

## FULL STACK WEB DEVELOPER

Full Stack Developer with experience using frontend and backend technologies such as JavaScript, React, Ruby, and Rails. I bring nearly 4 years of retail leadership experience, which has given me a deep understanding of exemplary user experience, along with strong collaboration and organizational skills. I have a passion for finding new, more optimized solutions to existing problems.

## TECHNICAL SKILLS

JavaScript, React, Ruby, Rails, SQL (Postgresql, SQLite3),  HTML, CSS

## TECHNICAL PROJECTS

**Put Me In, Coach!** - [Github](#) | [Demo](#)
*Allows for lineup creation across every era of baseball with percentile rankings, as well as a batter vs. pitcher simulation to experiment with who would have the advantage in a hypothetical matchup.*
- Accessed an external API of over 19,000 MLB players to gather data using a React Fetch and stored the lineup data using Rails, Active Record, and Postgres, and used BCrypt for secure login and account creation
- Built custom algorithms using my knowledge and passion for the game of Baseball to show the most accurate potential outcomes in the simulation.
- Styled the site with a mix of React Bootstrap and CSS to create a smooth user experience.

**Housd** - [Github](#)
*Created a place for landlords, homeowners, or property management to track and create appointments for the tasks at each property by partnering with service providers who use the site.*
- Built two separate dashboards depending on if the user is a property owner or service provider
- Utilized Active Record, Rails, and Postgres to store the information in the backend, and created a secure login and account creation tool with BCrypt in Rails
- Styled the site with a mix of Material UI and CSS

**Beer Stuff** - [Github](#)
*Established a place for beer consumers to share beers they've tried with other users.*
- React heavy site with db.json as the backend to store upvote tallies, beer data, and new beer submissions
- Styled using Ant Design and CSS

## EXPERIENCE

**Best Buy**                                                                                                                         Santee, CA
Inventory and Merchandising Supervisor                                                        05/2014 - 11/2021
- Executed strategic plans in merchandising, inventory, and asset protection. Led and mentored a team of up to 28 direct reports to confirm accurate record keeping, storage, and shipment of products were handled, while fostering a strong asset protection culture throughout the store.
- Provided ongoing coaching, training, and motivation to team members and other store personnel as needed to achieve sales goals and highest standards of customer service, leading to Customer Satisfaction Index ratings between 80-90% most quarters, compared to the district average in the low 70's.
- Had multiple years of record setting performance with low and accurate shrink, achieved by maintaining excellence throughout the year. Prevented margin loss of over $100,000 across 3 full years.
- Won the Achievers Contest in 2020, which is awarded to the top 3 Operations teams out of ~250 in the West.
- Promoted internally from Merchandising Associate in 2018 after 4 years of exceptional performance.

## EDUCATION

**Flatiron School**                                                                                                             San Diego, CA
Full Stack Web Development, JavaScript, React, and Ruby on Rails program              11/2021 - 03/2022
**San Diego State University**                                                                                        San Diego, CA
Attended classes and acquired 77 units                                                              08/2012 - 12/2015
